

# Harbor "Open House" Gala Event All Day Saturday

## Entertainment for Thousands Being Planned

Caravans of school students, tourists and other interested residents are organizing all over Southern California to descend en masse on Los Angeles Harbor to celebrate the program being planned for Harbor Day this Saturday, May 15.

Colorful in the extreme is the varied program prepared for the visitors. Open house will be held by all major industries, passenger and freight ships, and docks and warehouses of the great port with special guides to escort sightseers through them.

A movie star from a major studio has been selected to reign as Queen of the Harbor throughout the day. She will be attended by a court of 30 harbor beauties attired in costumes of every nation. An early 19th Century slave ship will stand moored at the foot of 5th avenue in San Pedro with special guides to show intimate details of this once feared villain of the deep. In strong contrast the Cunard Line's transatlantic "Franconia" will be anchored nearby to give visitors a glimpse of a modern behemoth of the waves.

International color will be furnished by many ships from foreign lands with sailors in exotic costumes to serve as guides to the swarming sightseers. The Chilean cruiser "Maipo" will be open for inspection at the Navy Landing.

Special features will include kayak, canoe, paddle-board, and aquaplane races, canoe tilting, and swimming and diving events at Cabrillo Beach. Yacht and speedboat races will be run all afternoon between the naval landing at Long Beach and the San Pedro breakwater. Fire boat and coast guard demonstrations up and down the channel will add further life to the mammoth celebration. Climaxing the observance at nightfall will be firing of the "ancient" derrick "Marylou" off Terminal Island.

## Dr. Parrish in Kiwanis Talk Describes Battle

(Continued from Page 1-A) geleno medico stated. The Los Angeles city health service has 400 workers, who treat 1,000 cases daily—400 of them for social diseases. It operates 26 clinics throughout the city and handled 1,800 confinement cases a year with but one fatality.

"Our toughest job is the milk game," he said. Dr. Parrish is a staunch advocate of Pasteurized, certified milk or their equal. He is charged with the inspection of some 2,500 dairies shipping milk into Los Angeles. That this is quite a task was evident from his statement that California is "still the worst spot in the world for tubercular cattle." However, he emphasized that in Los Angeles county this disease is less than one-fourth of one percent and is gradually being eradicated.

## Mothers' Program in Auditorium Proves Success

A large number of Torrance folk attended the all-city Mothers' Day entertainment last Friday at the Civic Auditorium, when a program was presented by the Recreation department. City Judge Robert Lessing voiced an impressive tribute to mothers and Mrs. Thomas Ulrich served as master-of-ceremonies.

Those participating in the program included Mrs. William Shawyer, Mr. and Mrs. Thomas Ulrich, Mrs. Kathryn Buffington, Walecia Women's trio, Mrs. Kelly director and Miss Kato, accompanist; a male quartet directed by Jack Hogue, Howard Foster, Mrs. Maud Hocott, Dorothy Matz and Jean Hoskings. Bouquets were presented three mothers—Mrs. Eva Durfee, 81, the oldest present; Mrs. George V. Powell, mother of the most children, and Mrs. Anabel Crawford, who was the youngest mother present.

## "Sons of Legion" Meet Again Friday

Another meeting of the recently-formed "Sons of Legion" group will be held tomorrow, Friday, night at 7:30 o'clock, at the Legion clubhouse on Carson street. Ray Beuge is assisting the organization which is open to sons of all World War veterans regardless of age.

## "World Trade Creates Local Jobs"

More truthful than the usual fishing tale is the idea behind this graphic cartoon. Increased international commerce means a better filled pocketbook for everyone. Foreign Trade Week will stress that message to the public with an educational program throughout Los Angeles county and the nation, starting with "Harbor Day" May 15 and continuing until May 22.

## Mural Gift to be Received With Ceremony

(Continued from Page 1-A) mural, on behalf of the Federal government, to the high school. The acceptance will be voiced by Robert Trezise, student body president.

Principal Thomas Elson is to describe Taos, N. M., and explain the customs of the Indians there which are depicted on the mural. He visited that reservation several years ago. Miss Vida Jones, member of the Winter class of 1937 which contributed \$50 toward the expense of the painting—the school had to pay the cost of materials used by the artist—will explain the composition of the work.

Many Special Guests The artist's preparation and accomplishments are to be reported by Miss Eva Jones, member of the high school faculty who teaches history and social sciences. Miss Ada Chase, art director, will speak on the exhibit of source material used by the artist which will be on display at the library. The closing number will be a group of piano solos by Mrs. E. A. Langley, of San Marino, an accomplished pianist and girlhood friend of the artist.

Miss Skeele's mother and sister from Monrovia and her sister and brother-in-law from Long Beach, will attend but the artist herself is prevented from participating in the program because of protracted illness. Representatives of the art supervisor's office of the Los Angeles city schools have been asked to attend as well as several other special guests from Los Angeles and Pasadena. Junior class girls will serve as ushers under the direction of Miss Jean Streitweiser.

Dogs Banned At City Hall PASADENA, Calif. (U.P.)—Pasadena's new \$1,000,000 city hall is rapidly taking on the air of an European royal palace. Following original restrictions against the entrance of bicycles and roller skates, dogs now are barred.

Adjudicated a Legal Newspaper By Superior Court, Los Angeles County.

## Local Publication of Election Data Wins in Assembly

County Supervisor Herbert C. Legg today halted the passage by the California Assembly of its bill No. 444 which provides that the publication of election notices, the names of election officials and addresses of polling places shall be handled locally.

If the bill is signed by the Governor it will replace the present system of printing this important information in just one single publication of the county.

"The recent victory for this bill is another victory for the newspapers and the reading public of Los Angeles county," Legg declared. "From the inception of the bill, I have supported it because it will give proper and sufficient notice to the public of where they can vote, and who will be their officials."

"Very few people read the single Los Angeles paper which at present, with limited circulation, has exclusive publication rights on this information. The average citizen, under the new bill, could pick up his communal information and get his election information."

Illiteracy Ratio Figured SAN FRANCISCO (U.P.)—Mildred J. Weise, supervisor of Illiteracy and Americanization, has figured that if all the illiterates of California were bunched in one city, it would be the third largest city in the state.

Ohoans See "Three" Suns DOVER (U.P.)—Citizens in this town still are talking about the three suns they saw recently. The extra two were caused by cloud reflections.

## What is the "Low-price Field"?

YOU hear a lot about "the low-price field" these days. A good many cars claim to be in it. So whenever the low-price field is mentioned, remember:

Until Ford came, no average American could own a car.

Today all Ford prices are still low — with the prices of the 60-horsepower Ford V-8 \$30 to \$60 lower than those of any other car of comparable size.

But with Ford, "low price" doesn't merely mean low figures on the price tag. It means much more than that. It means low prices and low costs all the car's long life. Low prices for service — for parts — and, above all, for operation.

Both Ford V-8 engine sizes are economical to operate. The 85 horsepower gives greater gasoline mileage this year than ever, and the "60" delivers the highest mileage in Ford history.

Private owners, cab companies, fleet operators all report that the "60" averages from 22 to 27 miles per gallon of gasoline.

Check and see how much Ford saves you.

Ford Founded the Low-price Field Ford Keeps That Field Low-priced Today

## Ford V-8 Prices Begin at \$529

AT DEARBORN FACTORY. TRANSPORTATION CHARGES, STATE AND FEDERAL TAXES EXTRA

This price is for the 60-hp. Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment and ash tray.

\$25 A MONTH, after usual down-payment, buys any Ford V-8 Car from any Ford dealer in the U. S. — through Authorized Ford Finance Plans of Universal Credit Co.

## Cravens Apartment Building is Sold

One of the largest structures of its kind in the city, the Cravens apartments was sold this week by J. C. Smith, of the Torrance Investment company to C. H. Edick corporation of Huntington Park. The previous owners was the first realty corporation. The transaction involved a cash exchange of some \$20,000 for the eight-year-old building.

Vandals Try to Be Humorous EUGENE, Ore. (U.P.)—Eugene residents, in driving to the city's scenic vantage spot, found a collection of tombstones clustered near. Vandalism was suspected, the markers apparently having been moved from local cemeteries.

## Car Crash Fatal to Robert Hall

(Continued from Page 1-A) Hall would have been 21 years of age Saturday. The shock of the fatality unnerved his mother but under the tender ministrations of friends she recovered sufficiently today to start the journey back to Kansas where the family lived about four years, before returning to California.
